

A Reputation for Problem Solving

Points North is a nationally recognized software firm that's an industry leader in data integration solutions. Our solutions provide integration between HR, Payroll and Time & Labor systems, enabling hundreds of companies across the U.S. to automate their data and work-flow processes.

This automation provides increased accuracy and efficiency, ultimately impacting the overall company performance. With outstanding product delivery combined with world class customer support, Points North is the right direction when it comes to data integration solutions.

We don't simply implement effective solutions to complex data integration challenges. We also develop the solutions, providing added value to out-sourced solutions and in-house applications.

.....

"Points North and ADP have enjoyed a long-standing relationship. Points North is a dependable, efficient, service-oriented partner with excellent products and staff that enhance the ADP offering. We are pleased to partner with such a top-notch organization."

Attendance Advisorsm allows companies to track all their employees' attendance events. This fully configured attendance tracking solution is developed around a company's attendance policies and procedures and can automate reward and disciplinary actions. As policy thresholds are reached, it automatically generates the appropriate documents. It can also manage perfect attendance for hourly or monetary awards. Attendance Advisorsm provides the robust reporting capabilities your company needs.

Never miss another attendance award or disciplinary notice again with Attendance Advisor

Time & Labor Collection

What other people are saying about Attendance Advisorsm

"We have a very complicated attendance policy at our Kentucky distillery. Points North worked hand-in-hand with us to develop an integrated solution. Monthly attendance reporting prior to this solution took us eight hours. Today it is a matter of running the attendance report.

"Points North developed custom labor distribution reports that assist us in running our business. It is now long after the solution was put into service and Points North continues to support us. That means a lot!"

Jim Beam Distilling Co. | Clermont, Kentucky

"The Attendance Advisorsm has saved time. I do not miss the manual recording of the attendance. Attendance records are updated earlier than before. Therefore, the warnings are issued to employees sooner. I like everything about the program. I would not want to ever go back to the old way."

HCC, Inc. | Mendota, Illinois
